

Sample Health Insurance Policy Document

Policy Name: SecureHealth Comprehensive Insurance Plan

Policy Type: Individual Health Insurance

Policy Document Version: 1.0

Insurer: SecureHealth Insurance Company Ltd.

Policy Period: 12 months

Currency: Indian Rupees (INR)

Policy Overview

1. Introduction

The SecureHealth Comprehensive Insurance Plan is a health insurance policy designed to provide financial protection against eligible medical expenses incurred by the insured person during the policy period.

This policy provides coverage for hospitalization, certain day-care procedures, pre-hospitalization expenses, post-hospitalization expenses, ambulance services, and selected preventive healthcare benefits, subject to the terms, conditions, limits, exclusions, and waiting periods described in this document.

The policyholder is responsible for paying the applicable premium and providing accurate information during the application and renewal process.

The insurer is responsible for processing eligible claims according to the terms of this policy.

2. Policy Eligibility

The policy may be purchased by individuals between 18 and 65 years of age.

Children between 91 days and 25 years may be covered when included as dependent members under an eligible family policy.

Eligibility may be subject to underwriting requirements, medical declarations, or medical examinations requested by the insurer.

3. Policy Duration

The standard policy period is 12 months from the policy commencement date.

Coverage begins on the date specified in the policy schedule, subject to the payment and acceptance of the applicable premium.

The policy may be renewed subject to the renewal terms of the insurer.

4. Sum Insured

The policyholder may select a sum insured of:

- ₹3 lakh
- ₹5 lakh
- ₹10 lakh

- ₹15 lakh
- ₹25 lakh

The selected sum insured is stated in the policy schedule.

The sum insured represents the maximum amount payable by the insurer during a policy period, subject to individual benefit limits, sub-limits, deductibles, exclusions, and other conditions.

Definitions

5. Important Definitions

5.1 Insured Person

An individual whose name appears in the policy schedule and who is entitled to receive benefits under this policy.

5.2 Policyholder

The person who purchases the policy and is responsible for payment of the premium and compliance with policy conditions.

5.3 Hospital

A registered medical facility providing inpatient treatment under the supervision of qualified medical professionals.

For this policy, a hospital must generally have at least 10 inpatient beds in cities with a population below 10 lakh and at least 15 beds in other locations.

5.4 Hospitalization

Continuous inpatient admission to a hospital for a period exceeding 24 consecutive hours.

The 24-hour requirement does not apply to listed day-care procedures where the treatment is completed within a shorter period.

5.5 Day-Care Treatment

A medical or surgical procedure that requires hospital admission but does not require the insured person to remain hospitalized for 24 hours because of advances in medical treatment.

Only procedures listed or accepted under the policy are covered.

5.6 Pre-Hospitalization Expenses

Eligible medical expenses incurred before hospitalization for the same medical condition.

This policy covers eligible pre-hospitalization expenses for up to 30 days immediately before the date of admission.

5.7 Post-Hospitalization Expenses

Eligible medical expenses incurred after discharge for the same medical condition.

This policy covers eligible post-hospitalization expenses for up to 60 days after discharge.

5.8 Emergency

A medical condition requiring immediate treatment to prevent serious deterioration of health or significant risk to life.

Hospitalization Coverage

6. Inpatient Hospitalization

The insurer will reimburse eligible hospitalization expenses incurred for medically necessary treatment of an illness or injury.

Covered expenses may include:

- Room charges
- Nursing charges
- Doctor consultation fees
- Surgeon fees
- Anesthesia charges
- Operation theatre charges
- Intensive Care Unit charges
- Medicines
- Diagnostic tests
- Blood and blood products
- Medical equipment used during hospitalization

All expenses remain subject to the sum insured, applicable sub-limits, exclusions, deductibles, and reasonable and customary charges.

7. Room Rent

Room rent is covered up to 1% of the sum insured per day, subject to a maximum of ₹5,000 per day.

For example, if the selected sum insured is ₹5 lakh, the room-rent limit is ₹5,000 per day.

If the insured person chooses a room exceeding the applicable room-rent limit, proportionate deductions may apply to certain associated medical charges according to the policy rules.

8. Intensive Care Unit

ICU expenses are covered up to 2% of the sum insured per day, subject to a maximum of ₹10,000 per day.

ICU treatment must be medically necessary and supported by appropriate medical records.

9. Pre-Hospitalization Coverage

Eligible expenses incurred within 30 days before hospitalization are covered when they relate directly to the medical condition for which hospitalization occurs.

Examples may include:

- Doctor consultations
- Diagnostic investigations
- Prescribed medicines

Expenses unrelated to the hospitalization are not eligible under this benefit.

10. Post-Hospitalization Coverage

Eligible medical expenses incurred within 60 days after discharge are covered when they relate directly to the condition treated during hospitalization.

The insured person must retain relevant prescriptions, bills, and medical reports.

Day-Care and Emergency Benefits

11. Day-Care Procedures

The policy covers eligible day-care procedures that are medically necessary and performed at an authorized hospital or day-care facility.

Examples include:

- Cataract surgery
- Chemotherapy
- Dialysis
- Minor surgical procedures
- Certain endoscopic procedures

The list of eligible procedures may be updated by the insurer.

Procedures that can normally be completed without hospital admission may not qualify as day-care treatment.

12. Ambulance Coverage

Emergency road ambulance expenses are covered up to ₹5,000 per hospitalization.

Ambulance transportation must be medically necessary and related to the insured person's medical condition.

Air ambulance services are not covered under the standard policy.

13. Organ Donor Expenses

Reasonable medical expenses incurred for an organ donor may be covered when the insured person receives an eligible organ transplant.

Coverage applies only to expenses specifically permitted under applicable law and this policy.

The policy does not cover the donor's unrelated medical expenses or long-term treatment following donation.

14. Home Healthcare

Certain treatments that would normally require hospitalization may be covered when performed at the insured person's residence because the patient's medical condition prevents hospital admission or because an eligible hospital bed is unavailable.

Home healthcare must be prescribed by a qualified medical practitioner and approved according to the insurer's claim procedures.

Waiting Periods

15. Initial Waiting Period

A general waiting period of 30 days applies from the policy commencement date.

During this period, illnesses that are not caused by accidents are generally not covered.

Accidental injuries are not subject to the general 30-day waiting period.

16. Pre-Existing Diseases

A pre-existing disease is a medical condition diagnosed, treated, or for which medical advice was received before the beginning of the policy.

Coverage for declared pre-existing diseases begins after a waiting period of 36 months.

The waiting period may be modified if specifically stated in the policy schedule.

17. Specific Disease Waiting Period

A waiting period of 24 months applies to certain specified treatments and conditions, including:

- Hernia
- Cataract
- Joint replacement, unless required because of an accident
- Benign prostate conditions
- Certain non-accidental ligament and tendon disorders

The specific waiting period applies unless the policy schedule states otherwise.

18. Continuous Coverage

Waiting periods may be reduced or waived when permitted by the insurer's portability, migration, or continuity rules.

The insured person must provide accurate information about previous insurance coverage when requesting continuity benefits.

Exclusions

19. General Exclusions

The following expenses are generally not covered:

1. Cosmetic surgery unless medically necessary following an accident or when required to treat a covered medical condition.
2. Dental treatment unless hospitalization is medically necessary because of an accidental injury.
3. Treatment for intentional self-inflicted injuries.
4. Expenses related to unlawful activities.
5. Non-prescribed medicines and supplements.
6. Vitamins and nutritional products unless prescribed as part of covered treatment.
7. Experimental or unproven treatments.
8. Treatment that is not medically necessary.
9. Personal comfort items such as television, telephone, and guest accommodation.
10. Expenses related to routine health checkups unless specifically covered.

20. Maternity Exclusion

Routine maternity expenses are not covered under the standard version of this policy.

Pregnancy-related complications may be considered for coverage when specifically included in the policy schedule.

Newborn coverage is available only when the newborn is added according to the policy's applicable terms.

21. Cosmetic and Appearance-Related Treatment

Treatment primarily intended to improve appearance rather than treat an illness or injury is excluded.

However, reconstructive surgery may be covered when medically necessary following an eligible accident or covered illness.

22. Alternative Treatment

Ayurvedic, Yoga and Naturopathy, Unani, Siddha, and Homeopathy treatments may be covered only when received at an eligible facility and when specifically included in the policy schedule.

Claim Process

23. Cashless Claims

The insured person may request cashless authorization when treatment is received at a network hospital.

The hospital submits the required pre-authorization request to the insurer or its claims administrator.

Cashless authorization is subject to verification and does not guarantee that every expense will ultimately be payable.

Non-covered expenses remain the responsibility of the insured person.

24. Planned Hospitalization

For planned hospitalization, the insured person should notify the insurer at least 48 hours before admission.

The request should include:

- Policy number
- Patient name
- Hospital name
- Diagnosis
- Proposed treatment
- Expected admission date

25. Emergency Hospitalization

For emergency hospitalization, the insurer should be notified within 24 hours of admission or as soon as reasonably possible.

Failure to provide immediate notification does not automatically invalidate a claim when circumstances reasonably prevented timely notification.

26. Reimbursement Claims

If cashless treatment is unavailable, the insured person may submit a reimbursement claim.

Required documents may include:

- Completed claim form
- Hospital discharge summary
- Final hospital bill
- Payment receipts
- Investigation reports
- Doctor prescriptions
- Pharmacy bills
- Identity documents
- Bank account details

The insurer may request additional documents when reasonably necessary to assess the claim.

Claim Assessment and Payment

27. Claim Processing

The insurer will review submitted documents and determine whether the claim satisfies the policy conditions.

The insurer may verify:

- Medical necessity
- Treatment details
- Hospital eligibility
- Policy coverage
- Waiting periods
- Exclusions
- Previously disclosed medical conditions
- Submitted bills and receipts

28. Claim Approval

If the claim is approved, the payable amount will be calculated after applying:

- Sum insured limits
- Deductibles
- Co-payment
- Sub-limits
- Non-covered expenses
- Waiting periods
- Applicable exclusions

29. Deductible

A deductible is the amount that the insured person must pay before the insurer becomes responsible for eligible expenses.

If the policy has a ₹10,000 deductible and an eligible claim is ₹80,000, the insurer may pay ₹70,000 subject to all other policy conditions.

30. Co-Payment

A co-payment is the percentage of an eligible claim that must be paid by the insured person.

For example, with a 20% co-payment on an eligible claim of ₹1,00,000:

- Insured person's share: ₹20,000
- Insurer's share: ₹80,000

The applicable co-payment percentage is specified in the policy schedule.

31. Claim Rejection

A claim may be rejected when the treatment is excluded, the policy is inactive, required conditions are not satisfied, material information was intentionally withheld, or the claimed expenses are not medically necessary or otherwise payable under the policy.

The insurer will communicate the reason for rejection.

Renewal and Policy Changes

32. Renewal

The policy may be renewed annually by paying the applicable renewal premium before the expiration of the existing policy.

Renewal is subject to applicable laws and the insurer's renewal rules.

33. Grace Period

A grace period of 30 days may be provided for renewal after the policy expiration date.

Coverage during the grace period is subject to the applicable renewal terms.

Claims arising during a period in which the policy was not active may not be payable unless permitted by applicable rules.

34. Change of Personal Information

The policyholder should notify the insurer of changes to:

- Address
- Telephone number
- Email address
- Nominee information
- Bank details

Incorrect or outdated information may delay communication and claim processing.

35. Addition of Family Members

New family members may be added during the policy period when permitted by the policy terms.

The addition may require additional premium and may be subject to applicable waiting periods.

36. Cancellation

The policyholder may request cancellation according to the cancellation terms stated in the policy schedule.

Any refund will depend on the duration of coverage, claims made, and applicable cancellation rules.

Customer Rights and Grievances

37. Policyholder Rights

The policyholder has the right to:

- Receive policy documents.
- Receive information about coverage and exclusions.
- Submit claims according to the prescribed process.
- Receive information regarding claim decisions.
- Request clarification regarding claim rejection.
- Submit a grievance regarding policy servicing or claims.
- Access applicable portability or renewal options.

38. Grievance Procedure

If the policyholder is dissatisfied with a service or claim decision, the policyholder may first contact the insurer's grievance department.

The complaint should include:

- Policy number
- Claim number, if applicable
- Description of the issue
- Relevant supporting documents

The insurer will review the complaint according to its grievance procedure.

39. Fraudulent Claims

Providing false information, submitting fabricated documents, or deliberately concealing material information may result in claim rejection and other action permitted under applicable law.

The insurer may investigate suspicious claims and request supporting documentation.
